

CIRCULATION COMMITTEE MEETING NOTES

Friday May 21, 2010

Members Present: Bob Middleton, Elaine Morris, Clay Dillashaw, Jack Johnson and Wes Kulm

Absent: John Broeder,

Staff: Planning Director David Hanham, Deputy City Clerk Jennifer Preston

CALL TO ORDER- 5:00 PM.

PUBLIC COMMENT - None

1. REVIEW OF NOTES

Review of the March 11, 2010 meeting notes. No comments.

2 & 3. UPDATE CITY PARKING & LOADING STANDARDS

Planning Director Hanham presented staff report about the updated information concerning the parking analysis. Staff has counted all of the East side of Main St. buildings for square footages and has counted the Visitor's Center and the Utica Hotel square footages on the West side. Staff still needs to update the rest of the square footages for the downtown area. Jack Johnson stated that we know that we are still going to be short parking spaces after the counting is all done, so what can we do about it. Planning Director Hanham stated that there are different ways that the City can approach this, one is in-lieu of fees, constructing new parking areas, or updating the parking standards to match what the City has already downtown. On the standards of parking staff has been working on with taking the Jackson standards and putting them in the City's format.

4. LEGACY STREETS

Items of discussion was that staff is working on bringing back to the committee an idea of what can be done about the Legacy Streets, such as making some of them one way streets, or making some of them wider. Also staff is working on putting Legacy Street Standards together for the committee, once this is complete staff will bring back to the committee to approve.

Meeting adjourned at 5:45 p.m.
